

Stay (In My Arms)

Nevertheless

Say they let you down
I've been there
I have felt it too
You are not alone
Don't worry
I'll never let him talk to you that way again {Chorus}
You can stay in my arms
Till the morning comes
I'll sing this song for you
Stay till the morning comes again
You can stay in my arms
Till the morning comes
Until this storm is through
(Stay) Till the morning comes again
I'll be by your side People are the same
We're broken
Full of hurtful words
They don't see you like
I see you
Cause if they did,
They'd know how much you're worth {Chorus}
You can stay in my arms
Till the morning comes
I'll sing this song for you
Stay till the morning comes again
You can stay in my arms
Till the morning comes
Until this storm is through
(Stay) Till the morning comes again
I'll be by your side {Bridge}
And I'll be your safest place
I'll be your face out in the crowd
And I'll hold your heart in mine
Cause you're here
It's all right now {Chorus}
You can stay in my arms
Till the morning comes
I'll sing this song for you
Stay till the morning comes again

You can stay in my arms
Till the morning comes
Until this storm is through
(Stay) Till the morning comes again You can stay in my arms
Till the morning comes
I'll sing this song for you
Stay till the morning comes again
You can stay in my arms
Till the morning comes
Until this storm is through
(Stay) Till the morning comes again
I'll be by your side
Stay in my arms
