In a Dream

Nina Sky

Ooh, in a dream you're here, next to me.

I'm makin' your every fantasy come, in my dreams,

I'm with you.

Ooh, in a dream you're here, next to me.

I'm makin' your every fantasy come, in my dreams,

I'm with you.

I see you almost everyday, noticed your smile and your thugged out ways.

Usually not attracted so intensely to a man your type
but your mystery intrigues me, let me show you what I'm like.

Ooh, in a dream you're here, next to me.

I'm makin' your every fantasy come, in my dreams,

I'm with you.

Ooh, in a dream you're here, next to me.

I'm makin' your every fantasy come, in my dreams,

I'm with you.

When I think about the possibilities of you ending up really feelin' me, I get all flushed and wonder why I'm so infatuated with a guy -- your so so so, uncompatible.

I'm gonna make my move,

I'm gonna make my move, I'm gonna let you know that I'm feelin' you.

Ooh, in a dream you're here, next to me. I'm makin' your every fantasy come true, in my dreams, I'm with you.

Ooh, in a dream you're here, next to me. I'm makin' your every fantasy come true, in my dreams, I'm with you.

Ooh, in a dream you're here, next to me. I'm makin' your every fantasy come true, in my dreams, I'm with you.

Ooh, in a dream you're here, next to me. I'm makin' your every fantasy come true, in my dreams, I'm with you.

You're so appealing to me, by every fantasy. In your eyes, I see you and i. together we can

start a family, love lets erase the vanity, you and i.

Ooh, in a dream you're here, next to me. I'm makin' your every fantasy come true, in my dreams, I'm with you.

Ooh, in a dream you're here, next to me. I'm makin' your every fantasy come true, in my dreams, I'm with you.

Ooh, in a dream you're here, next to me. I'm makin' your every fantasy come true, in my dreams, I'm with you.

Ooh, in a dream you're here, next to me. I'm makin' your every fantasy come true, in my dreams, I'm with you.
