Gary Numan

I would take your place
If your world fell down
I would take your pain
And leave a smile
For youIf you feel a kiss
When your dreams are dark
And a voice guides you home
When you are lost

That was meSometimes love breaks my heartSometimes love breaks my heartI will keep you warm

And I'll wipe your tears away

I'm a shadow Watching over you

All my lifeI would die for you I would give the world to you

And I'd sell my soul to keep you safe

I love youSometimes love breaks my heartSometimes love breaks my heartAnd when God comes for me

I won't go far

Like a smile in your heart

I won't be far awayIf you're afraid and need to find me
I'll be here with you

And when you dream and hear me calling
You'll see me againSometimes love breaks my heart
