Peng! 33

Stereolab

Curiosity was far greater than our fear
It felt so simple and so prodigious at the same timeIncredible things are happening in the world
Magical things are happening in this worldAcross the river there are all kinds, magical instruments
While really we keep on living like monkeysIncredible things are happening in the world
Magical things are happening in this world, yeahAcross the river there are all kinds, magical instruments
While really we keep on living like monkeysIncredible things are happening in the world
Magical things are happening in this world
