

Where I'm Going

Cut Copy

Take my hand if you know where I'm going through
Take my hand if you know where I'm going You know ow
You know ow All you need is a dream and a lover too
All you need is a dream and a lover Take my hand 'cause I know what you're going through
After the time I haven't known where you're going You know ow
You know ow It's my dream that you've chosen if you wanna to
It's a turning cause your if you wanna You know ow
You know ow I set me free
But I with hands of dreams
I know fresh down the sea
To wonder will agree
