

I Want To Believe You

Lori Carson & Paul Haslinger

I want to believe you.
I want to believe in us.
When everything is wrong
will you come through?
I want to believe you.
I want to believe you.
I want to believe in us.
When everything is wrong
will you come through?
will you come through?
will you come through?
When everything is wrong?
I want to believe you.
I want to believe in us.
When everything is wrong
will you come through?
I want to believe you.
I want to believe you.
When everything is wrong
will you come through?
Will you come through?
Will you come through?
Will you come through?
