Downtown

Eve 6

I am a citizen, a friend, and a neighbor.
(toeing the line, toeing the line)
Im always keeping on my best behavior
(toeing the line, toeing the line)
I like to think I try to try to do whats right
But still I get this feeling that I cant deny
I tell myself Im better than the average lot
But I'm not
I know it
And Im about to show it
So take me downtown on the company dime
Punch me in the arm, make sure Im alive
I need a weekend
Gotta kick out the dust
Get my motor running cause its started to rust
Shake it off
Turn me on
Ive been down on the ground for too long
So take me downtown
Take me downtown
Down, down, down
Im a professional, the family is stable
(toeing the line, toeing the line)
We join hands for the prayer at the table
(toeing the line, toeing the line)
I like to think I try to try to do whats right
I go rolling in the dirt but I clean up nice
I tell myself Im better than the average lot
But I'm not
I know it
And Im about to show it
So take me downtown on the company dime
Punch me in the arm, make sure Im alive
I need a weekend, gotta kick out the dust
Get my motor running cause its started to rust
Shake it off
Turn me on
Ive been down on the ground for too long
So take me downtown

Take me downtown
Down, down, down
I want to feel
To feel so far away
I want to feel
To feel so far away
To feel so far away
I want to feel
So take me downtown on the company dime
Punch me in the arm, make sure Im alive
I need a weekend, gotta kick out the dust
Get my motor running cause its started to rust
Shake it off
Turn me on
Ive been down on the ground for too long
So take me downtown
Take me downtown
Down, down, down
