

# Time Stands Still

## Karnataka

Is time standing still  
Or is today in my imagination  
Everything seems out of place  
And it's so very cold, so very cold I Had to come back  
To see again the place that I remember  
But even now I feel so small  
I want to run away, to run way A promise made of empty words lies broken at my feet Time standing still  
The ghosts of yesterday  
Time standing still  
If I could walk away These walls must have seen  
So many tears and much humiliation  
Do they see me standing here  
Now I'm home again, home again A memory in every room, the ghost of yesterday Took a chance of a lifetime  
So that I could walk away  
And it's where the story ends  
If hope is reason  
Then I'm determined to believe  
I'll love again My dreams turn to dust  
Like fading lights ahead in the distance  
Always running to keep up  
But I'm so very tired, so very tired  
Time standing still
