Flyleaf

Don't give up yet
Stop trying to pretend
You're never gonna change
That might be true You're gonna be a better you
Looking for signs
In the corner of your eyes
Take a breath and step outside
Don't hide the Light inside of you One step closer
We're looking out for brighter days
One step closer We'll find our way back Home
Time to go Home
Every chance we take will lead us through the Unknown
Home Tears stain your eyes
But you didn't give up the fight
And now the fear won't paralyze
So leave your broken satellite
Every breath is a chance to know yourself
And show them what you're made of now
Forgiveness is the sweetest sound One step closer
We're looking out for brighter days
One step closer We'll find our way back Home
Time to go Home
Every chance we take will lead us through the Unknown
Home The time has come to take our chance
Fire, let me see you dance
Home One step closer
We're looking out for brighter days
One step closer
We'll find our way back Home
