

You Build Me Up (To Bring Me Down)

The Datsuns

Tin loving disguised
Come join us on the other side
A false passion, a false cause
Does it really hurt to be ignored? Hey, girl, I never knew You build me up to bring me down
You build me up, yeah, so you can mess around
You build me up to bring me down
You build me up, yeah, so you can mess around Everywhere, even your home town
Finally decides you've made a sound
They turn their head and stare at everything you got
And make you something you are not Hey, girl, I never knew You build me up to bring me down
You build me up, yeah, so you can mess around
You build me up to bring me down
You build me up, yeah, so you can mess around 'Cause it's all about looking, about looking good, yeah alright
Yeah, it's all about looking, about looking good
Yeah, it's all about, all about looking good You build me up to bring me down
You build me up so you can mess around
You build me up to bring me down
You build me up, yeah, so you can mess around You build me up to bring me down
You build me up, yeah, so you can mess around
You build me up to bring me down
You build me up, yeah, so you can mess around You build me up to bring me down
You build me up, yeah, so you can mess around
You build me up to bring me down
You build me up, yeah, so you can mess around
