Flamingo

Charles Mingus

slow down your mind
feel the unknown spaces with truth and lie
if you can find the time
time seems so slow
now we'r stuck here asking
where did it go
and what are we here forCHORUS
there we were,
looking out some country window
and although we had our problems
we were fine
the sky was blue
and the night was all i wanted
let me be your commet i will flysummer time so sweetluxuries of chilhood were on our feet
and the sun sun sun
so baby run run run
baby run run run
baby run run run
place will be portraitedCHORUS
there we were,
looking out some country window
and although we had our problems
we were fine
the sky was blue
and the night was all i wanted
let me be your comet i will fly.
the sky was blue
and the night was all i wanted
let me be your comet i will fly
