Make A Difference

Papoose

I?ve got peace on my mind with a pistol full of insistence
Enough blood to fill an egg
But does it make a difference
Tolerance was the sermon, no matter how dubious
The fundamental thinking just turned so malicious
There?s a few people spinning gold
Some just try to save their sole
But I wonder what to do
Money, Bills and secret guns
I know I can?t help everyone,
But I can take on one or two
That?s what I?ll do.
I?ve got to pick a God, so many of them to witness
Did I follow the right one; does it make a difference
Inside there?s a substance few hold my penance
The whole world is an egg, but can I make a difference

There?s a few people spinning gold
Some just try to save their sole
But I wonder what to do
Money, Bills and secret guns
I know I can?t help everyone,
But I can take on one or two
That?s what I?ll do.
It?s beautiful in the world
It?s beautiful in the world
There?s a few people spinning gold
Some just try to save their sole
But I wonder what to do
Money, Bills and secret guns
I know I can?t help everyone,
But I can take on one or two
That?s what I?ll do.
