

Live Like You Believe

Jenny Phillips

Verse 1

You have felt the warmth of the fire
You have seen the glimmer of light
It's something that you have been missing inside
Something that you have been longing to find
Hold on to the yearning
And wherever you are on the journey

Chorus

Live like you believe
Live like you know
It's one sure way your faith will grow
Listen to your heart
Searching your soul
And you'll find the strength that you need
His light
The gift of his peace
When you live like you believe

Verse 2

There are things you have to let go
You might feel like just hanging on
When you find yourself alone and afraid
Questioning all the choices you've made
Hold on to the burning
He's leading you on through the journey

(CHORUS)

Verse 3

Hold on to the yearning
And wherever you are on the journey

(CHORUS)
