Let's Make Some Sunshine!

Fred Ellis

(Chorus)
Why dont we make sunshine though the day is dark and gray?
we can go outside and have a good time at play,
having a good time can make our sorry go away,
lets make this day so fine lets make some sunshine.(Verse)
I looked up at the skyline and noticed some dark clouds
I wondered why these dark clouds darkened the coastline
where we wanted to play, we can make this day so fine,
Lets Make Some Sunshine!(Chorus)(Verse)
Dark clouds can block out the sunshine
and block out the good time
we can still have some good time
because our friendship will bring happiness
we can make this day so fine,
Lets Make Some Sunshine!(Chorus)(Bridge)
Having a good friendship can brighten all of
our dark skies, how wonderful
a good friend ship can be.(Verse)
Friendships can make bright skies from sunshine
until moonshine well brighten all those dark
Brighten the coastline where we wanted to play
We make this day so fine, Lets Make Some Sunshine(Chorus)
Why dont we make sunshine though the day is dark and gray?
we can go outside and have a good time at play,
having a good time can make our sorry go away,
lets make this day so fine lets make some sunshine.
