

Devotion

Faces

So good to be with
The people that know you
It's good to hear the things that they say
Oh at times when you are with them So good to note
My strength is growing from day to day
There's not a thing
No no no no no not one thing I try to do without you Troubled times of pain that come
I take them any old day
You come and you wash them
You wash them all away
Wash them all away And everywhere you sing
In everything and I try by remembering
All the things that you said to me
From within all you did for me, just one word
Just one word, just one word
