Reach

Caleigh Peters

Sometimes it seems like youre falling
Falling out of the sky
Sometimes it feels like youre slipping
And running out of time
And thats when youve gotta throw it all away
All of the things that people say
And all of the doubts that fill your mind
Dont belong thereWhatever you do, youll never be wrong
As long as you reach for it
When you reach for it, nothings to far
And its never to long, as long as you reach for it
You can dream on it, everywhere its thereSometimes I can be stupid
I can get out of line
But most times you know what Im doing
Its not like some big surprise
Oh and I, I just want to make you understand
That failing on me isnt in my plans
And all of the doubts that fill my mind
dont belong there. stlyricsWhatever you do, youll never be wrong
As long as you reach for it
When you reach for it, nothings to far
And its never to long, as long as you reach for it
You can dream on it, everywhereTheres so much distance
Between what you want and what youve got
But if you really want it-its your life
So you gotta try
Youve gotta flyWhatever you do, youll never be wrong
You can reach for it
You can reach for itIts never to far and its never to long
As long as you reach for it. stlyrics
You can dream on it, everywhere
Everywhere
Everywhere
Everywhere
