

All the Same to Me

Lucero

well I know
it won't last long
it's all the same to me
it's just one smile, then it's gone
it's all the same to me
'cause when you try and make it stay
that's when it surely slips away
it's all the same to me
from the start
came from my heart
it's all the same to me
from the start
it fell apart
it's all the same to me
'cause when you try and make it stay
that's when it surely slips away
it's all the same to me
it's all the same to me
it's all the same to me
'cause when you try to make it stay
that's when it surely slips away
it's all the same to me.
