

That's the Way It Is

Charles Alexander

Some of us wake up
With dreams still on our mind
Than you realize
You have just stopped in a man made time

But than you starts to realizing that things are not for real
Girl - you just donâ€™t know just what it is

To have you by my side,
Iâ€™m glad that is real
And that the way love makes feel

You donâ€™t twist, and turn, to hope it is

The rain drops on your face
Is a river that flow with grace?
Your eyes reflex the sunlight
If this is a dream I donâ€™t want it replaced

But than you starts to realizing that dreams are not for real
Girl - in you - oh yes it is

To have you by my side,
Iâ€™m glad that is real
And that the way love is made to feel

You donâ€™t twist, and turn, to hope it is

I dream we are alone somewhere
Standing on a sandy beach
I dream of a house to live in
With carpet under our feet

But than you starts to realizing that dreams are not for real
Girl - in you - oh yes it is

To have you by my side,
Iâ€™m glad that is real
And that the way love is made to feel

You donâ€™t twist, and turn, to hope it is

*Some of us wake up
With some dreams still on our mind
Than you realize, than you realize
You have just stopped in a man made time
Iâ€™m glad that is for real, to have you by my side
It like a man going fishing
And I have the tropic prize
THATâ€™S THE WAY IT IS
Iâ€™m Glad It real, with you by my side
