Trounce

Jonathan Boulet

I do what I?m told
I just don't know any better

I don't even know what I said
I?m not in control of myself
I don't even know where I stand
I?m a meathead born and bred

I don?t know what I am like
I don't think for myself
All the things I do and say
It comes from someone else
I?ll be like this all my life
And all my children too
But times no point in saying this
When it's the same with you

I don't even know what I said
I'm not in control of myself
I don't even know where I stand
I'm a meathead born and bred

Born and bred.
