

Keepers of the Earth

Heavenly

Can you believe me if I tell you the truth?
Live eternally, this is just for you
Power and glory invading your thoughts
Meanwhile misery is killing too fast Looking the sky, I've been waiting for more
Many people are dying, again anymore
Wondering we will find solutions to be close
We are free to decide, make your choice Mad is humans pride to defy paradise
'Cause we are here, the keepers of the earth
Raise your armors high, our land is so divine
We'll stay here, the keepers of the earth
But time is running out Holy wars victims sending to their doom
Dictators are reigning, thinking they are Gods
The last century was deadly, more cruel
Bombs were atomic, million lives have gone Looking the sky, I've been waiting for more
We are free to decide, make your choice Mad is humans pride to defy paradise
'Cause we are here, the keepers of the earth
Raise your armors high, our land is so divine
We will stay here, the keepers of the earth
But time is running out Looking the sky, I've been waiting for more
We are free to decide, make your choice Mad is humans pride to defy paradise
'Cause we are here, the keepers of the earth
Raise your armors high, our land is so divine
We will stay here, the keepers of the earth
But time is running out, running out
