Tonic

The Balboas

See your face, just the other day
Takes me back to the other place
When I feel it's not too far away
And I just wanna hold your hand
And walk with you on another day
I want you to sit on my lap
And do the sweet things
That we used to
At the place, just the other day
And I ordered a drink, the tonic's on its way
When I feel it's not too far away
And I just wanna hold your hand
And walk with you on another day
I want you to sit on my lap
And do the sweet things
That we used to
I love you, so come on, girl
Let's do the sweet things
That we used to
I want you to sit on my lap
And do the sweet things
That we used to
I love you, so come on, girl
Let's do the sweet things
That we used to
