

# Sunset Gates

Gomez

A thousand miles but don't turn off this road  
From desert skies towards a strange new home  
A paper bag with everything she owns  
With arms wide open the night is closed Please make haste to where this rocket'll scrape the skies  
The teeming shores meet your new marvel's eyes  
I'll follow her everywhere she goes  
With arms wide open the night is closed Arms wide open, the night is closed  
Everywhere she goes, everywhere she goes  
Arms wide open everywhere she goes  
Everywhere she goes, everywhere she goes
