You Make Me Feel

Kelly Price

I found a love so real
It fills my head right down to my heels
I never thought that I would feel this way
My love please stay
Move my clouds and gave me the sun
There's no doubt that you are the one
You made my world complete and now I see
How love should be and I like
Like how you make me feel
The way you make me feel
It's too good to be real
Happy days 'cuz now I have you
Pain erased, I'm no longer blue
Filled my empty space with love so true
I never knew, oh, I'm in love and I can't deny
I found someone who makes me smile
Butterflies inside, this feels so right
You've changed my life and I like
Like how you make me feel
The way you make me feel
It's too good to be real
Every single part of me
Loves everything you do to me
Don't ever go away, baby always stay
Boy you know it's true, I like the things you do
Like how you make me feel
The way you make me feel
It's too good to be real
Like how you make me feel
The way you make me feel
It's too good to be real
Like how you make me feel
The way you make me feel
It's too good to be real
Like how you make me feel
The way you make me feel
