

Stop This Car

The Buckshots

I see the day pass me by
When I'm next to you
For the longest time
I prayed that I could
Ride up in yo' Coup
As the wheels they roll
Time roll so slow
Feels like I disappear
Gotcha eyes on the road
And so many things
It's just like I'm not here
I can hear the music playing
Turn it to my favorite station
Wind all on my face
But that's no remedy
When your heart it seem to be breaking
Tell you and you just don't listen
Don't know how much more I can take it
Nothing to say but
Stop this car
I don't wanna ride no more
'Cause it's just too fast
And you won't pump the brakes
Slow down and hear what I gotta say
Stop this car
Was our destination way too far?
I wanna get out
I don't wanna ride no more
Baby, just stop this car
I miss the days when we would
Tour the countryside
And drive for hours on open road
'Til the tank was dry
The minutes passed, we cry and laugh
Get inside your mind
Now it seems you built a wall
That I just can't knock down
I can hear the music playing
Turn it to my favorite station

Wind all on my face
But that's no remedy
When my heart it seem to be breaking
Tell you and you just don't listen

Don't know how much more I can take it

Nothing to say but
Stop this car
I don't wanna ride no more
'Cause it's just too fast
And you won't pump the brakes
Slow down and hear what I gotta say
Stop this car

Was our destination way too far?

I wanna get out
I don't wanna ride no more
Baby, just stop this car
There's nothing worse
Than being ignored
If you don't want me
Put the brakes to the floor
When you shut me out, I feel so alone
Pull over right here, open up the door
Watch me, I can be gone, oh yeah
Oh yeah, stop this car, stop this car

Stop this car
I don't wanna ride no more
'Cause it's just too fast
And you won't pump the brakes
Slow down and hear what I gotta say

Stop this car
Was our destination way too far?

I wanna get out
I don't wanna ride no more
Baby, just stop this car
Stop this car
I don't wanna ride no more
'Cause it's just too fast
And you won't pump the brakes
Slow down and hear what I gotta say

Stop this car
Was our destination way too far?

I wanna get out
I don't wanna ride no more
Baby, just stop this car

Dark night surrounding me
Watching your lights fade away
