

The Bleedin Clown

Manu Chao

Cause people grin when I come round
And kids they call me the bleedin' clown
I used to make the children happy
Now little girls cry when they look at me I'm goin' down, down, down
I'm goin' down. You left baby you left baby
You left and I'm lonely
You left baby you left baby
You left and I'm lonely I lost my reputation crown
There's nothin' on me but a bleedin' clown
Cause little girl found another boy
And left behind just a broken toy You left baby you left baby
You left and I'm lonely
You left baby you left baby
You left and I'm lonely Cause people grin when I come round
You left baby you left and I'm lonely
And kids they call me the bleedin' clown
You left baby you left and I'm lonely
I used to make the children happy
You left baby you left and I'm lonely
Now little girls cry when they look at me
You left baby you left and I'm lonely
You left and I'm lonely
You left and I'm lonely
