

# Saturday

## Rebecca Black & Dave Days

(Oh my god, I love this song. This is my jam! Where is the peanut butter?)2pm, getting out of my bed

Tryin to get Friday out of my head

It's all so hazy, got a little too crazy

You know I'd do it all again(Chorus)

Call everyone you know

turn up the radio

'cause this is our song

we can do no wrong

Are you ready, are you ready to go?

This saturday, we gon' party all night

One we will remember for the rest of our lives

This Saturday, we gon' do it bigger than, we ever had before

I don't want this Saturday to end (x3)

(End Chorus)(Brrpt, brrpt, "Hello?" "Hey, come over." "Alright, alright, I'll be right over,

I just gotta find my...pants.")Rollin' up in my new scene

Want you here right next to me

'cause this our night, ain't got no deadlines

There's nowhere else I'd rather be(Chorus)

Call everyone you know

Turn up the radio

'cause this is our song

We can do no wrong

Are you ready, are you ready to go?

This saturday, we gon' party all night

One we will remember for the rest of our lives

This saturday, we gon' do it bigger than, we ever had before

I don't want this saturday to end (x5)

(End Chorus)Yesterday was Friday, today is Saturday
