

# Whoknows

## Musiq Soulchild & Musiq

Now what we came here to do  
It means more to me than just a night  
That we'll share  
So make sure that you're prepared baby  
And know that love  
Is not just something to do  
It's the moment that transcends  
Our physical into a more spiritual level of understanding  
And who knows  
Somehow  
This night  
Just might lead us into a place where  
Our emotions can grow  
If we let em go  
Who knows what  
May happen  
If we act on our attractions and  
Lose ourselves inside a world made for us and no one else  
Hey girl  
Just let me love you
