The Last Chance

Urthboy

On and on you test your will
You've held on for this long
Don't want to die against your will
The choice is not your own
Every day you look at your sins
Once chance to wash them away
Every moment and everything
How precious life has become
This is the last chance
Your time is up and now you are free
Everything that you did
The memories are strong
All the lives that you touched
Embedded are my thoughts
Every day you look at your sins
Once chance to wash them away
Every moment and everything

How precious life has become
This is the last chance
Your time is up and now you are free
All your life
Had all the time
Thought you had the world
Felt this inside
Now you have died
We say goodbye to you
This is it you will be missed
And all you've done we won't forget it
Say goodbye, we say goodbye to you
This is the last chance
Your time is up and now you are free
This is it you will be missed
Say goodbye, we say goodbye to you
