Nightfall

Altus

Nightfall, o river of night flow through me
Washing the thoughts of the day on your waters away
For the morrow that dawns never knew me

Nightfall nightfall folding her dark locks around you
Her eyes they have found you
Would show you this new dream they're holding

O sleep, o come to me you who are night's daughter
And I'll give you my eyes for the colors that rise
As time's echoes reflect on your water
