# I'm Nothing

## The 88

Here I am, Its just so far to go
I had you in my sight, well then you turn out all the lights
I had a big idea, I was gonna let you know.
but my voice was strange. it changed before i let it go
But first you're so in love, then you're suffocated
But when you told me off. Well I was serenatedIm awake. let me know I'm nothing, stick around and show me up
like you're with the one you love. Wait. Act like you don't know me. Stick around and show me up, like you're with the one you loveI see you out with him, and we go toe to toe
You broke my heart in half but still I couldn't help but laugh
Just when I thought I could. . never love you more
You said you'd rather see me dead, then at your door.
but first you're so in love, then you're suffocated
But when you told me off. Well I was serenatedIm awake. let me know I'm nothing, stick around and show me up
Like you're with the one you love. Wait. Act like you don't know me. Stick around and show me up like you're with the one you loveI should give you up, but I just can't get enough.Just when I thought I could never love you more.
you said you'd rather see me dead then at your door.Wait let me know I'm nothing, stick around and show me up, like you're with the one you love. Wait. Act like you don't know me. Stick around and show me up like you're with the one you love
