The One You Love

Ronan Keating

We watched the sun
Gently fall into the sea
You whispered sweet love
There's eternityDiamonds on the road
Miles making miles
And everything we thought we lost
Is all comin' back to usPut your arms around the one you love, tonight
Let her know, that shes the only one
Put your arms around the one you love, tonight
Let her know
Never let her goSmile for me now
And end(then?) this heart again
Time after time
You remind me of what's realWe got this world
Tied up on a string
And everything I'll ever want
Is right here next to mePut your arms around the one you love, tonight
Let her know, that shes the only one
Put your arms around the one you love, tonight
Let her knowYou hurt me
We get up again
We fall
We get up again
It goes wrong
We get up again
You love me
Right to the endPut your arms around the one you love, tonight
Let her know, that shes the only one
Put your arms around the one you love, tonight
Let her know
You'll never let her goYou'll never let her go
You'll never let her go
No, NoPut your arms around the one you love tonight
Tonight, tonight, tonight
Put your arms around the one you love tonight
