Better Times

Happy Ol'McWeasel

I want you
To know the truth
Cause I've been around before
Thought I wasn't looking anymoreBeen a fool for weeks
Cause my heart stands for nothing
And your soul too weak
Got a will that's been around for days
Goes far if you want it, it needs to be have,
But then you,
You come around,
Big mistakeI don't want to know
I don't want to know
We don't need the sign to know
Better timesRunning around cause you put yourself up
You made a crack and the one that you loved is gone, oh...
How much longer can you play with fire
before you turn into a light oh... (x 2)I'v been around before
Thought you weren't looking anymore
But then we,
We come and and go,
Goes up in smokeI don't want to know
I don't want to know
We don't need the sign to know
Better times
