Girl

Texas

All the money's on your hip now
Need to take another trip down
Protect all mothers for they lay in the path
I can deal with the lovers
Always dealt with dreams
But I've never known what reality means'Cause you're the sweetest thing
I've waited for
I feel so good about youYou are always on my lookout
Sing what you are all about
Just think, you've got the power
Girl, you've got the powerLay me down to the right side
Tie me up till it feels fine
You know the uses and you've no compromise
Put it down with the two time
I always know when it feels right
I will if you will, I'm just taking my time'Cause you're the sweetest thing
I've waited for
I feel so good about youYou are always on my lookout
Sing what you are all about
Just think, you've got the power
Girl, you've got the powerYou are always on my lookout
Sing what you are all about
Just think, you've got the power
Girl, you've got the power'Cause you're the sweetest thing
I've waited for
I feel so good about youYou are always on my lookout
Sing what you are all about
Just think, you've got the power
Girl, you've got the powerYou are always on my lookout
Sing what you are all about
Just think, you've got the power
Girl, you've got the power
