Distant Lover

Blu

Lil' Boosie, Bad A**, BJ on the track, B
You gon' name your distant lover, so many miles away
Wish I could *** her everyday, touch her in every way
But she stay so many miles away
She my distant lover, so many miles away
Distant lover, so many miles away
I'm turnin' into Mr. Telephone Man, girl, you know I miss ya
So many miles away and I can't kiss ya
Look but I remember everythin', the concert, the room
The *** you whispered in my ear when I had you
Now my Jacksonville chick, she a endo shopper
She like to smoke purple and chill wit her partners
When I come in town, she cook for me
Know she lookin' good for me
Momma white, Daddy black, so that *** supa phat
My uptown chick, we still be flirtin'
When I see her, she remind me of how I broke a virgin
Think I still drive her crazy 'cuz she still wanna date me
Got a man and a baby, do ya thang, I ain't hatin'
Now my Michigan chick, she was too damn fine
Her *** stay wet all the time
One of the best to ever ride me, let me get a car and drive it
Every time she see Lil Boosie, she smilin'
Wish I could *** her everyday, touch her in every way
But look, she stay so many miles away
She my distant lover, so many miles away
Distant lover, so many miles away
Wish I could *** her everyday, touch her in every way
But she stay so many miles away
She my distant lover, so many miles away
Distant lover, so many miles away
At night, I'm on that dro, just thinkin' 'bout my distant lover
Wishin' I could call her up and go *** her
But she stay so many miles away and it's hard
And if I ain't got no shows, I can't even see my broad
She know a *** livin' large, so when we ***
Lil' mama gimme everythin', she ain't scared of nothin'
She get on top and drop it like it's hot, I'm steady nuttin'
My distant lover, a lil' sexy, lil' sumthin', huh bro, huh bro?

Now my Tampa chick, she 'bout what she be talkin' 'bout
Nasty girl, take it out her ***, put it in her mouth
Knew she was a freak when she got in the backseat
She say she wanted me and peep, we never shakin' in the sheets
Now my Georgia peach, we gon' thug 'til the end
She don't give a *** about no lady or none of my friends
When she seen that, man, she hugged me
Tell me hi, that she wan' *** me
I had to show her how to suck it, nicknamed her 'Cold blood'
Wish I could *** her everyday, touch her in every way
But look, she stay so many miles away
She my distant lover, so many miles away
Distant lover, so many miles away
Wish I could *** her everyday, touch her in every way
But she stay so many miles away
She my distant lover, so many miles away
Distant lover, so many miles away
Girl, I got feelings for you, man, I'm on some *** like middle school
I'm tryna write you letters since I can't come home and tickle you
I'll *** her wit her lil' dude, I need that *** from you every night
'Cuz I know it gon' be wet and right
A candlelight dinner 'cuz wit me, you a winner
If you wit me, you ridin' Davins, other spinners, pretenders
I got redbones in different states, every one got a pretty face
Every one let me grip they waist, every one know I don't play
My thugged out chick, I can't *** her too often
She bring problems in my life, she do too much talkin'
But I gotta give it to her, with that mouth, she the sickest
You put work up in her hand, she gon' move it wit the quickest
Now my California chick, she the type you don't need
She always trippin' on me when I smoke my ***
I told her, "Girl, if you don't like it, then you can get to hikin'
I was trippin' when you told me you was dykin'?
She my distant lover, *** wish I could *** her everyday
But she stay so many miles away
She my distant lover, *** wish I could *** her everyday
But she stay so many miles away
She my distant lover, *** wish I could *** her everyday
But she stay so many miles away
She my distant lover, *** wish I could *** her everyday
Distant lover
Wish I could *** her everyday, touch her in every way
But look, she stay so many miles away
She my distant lover, so many miles away
Distant lover, so many miles away

Wish I could *** her everyday, touch her in every way
But she stay so many miles away
She my distant lover, so many miles away
Distant lover, so many miles away
