# Last Second Chance

## This Beautiful Republic

She is not afraid of setting suns
The light will start to fade but never love
She's holding to the One who lives to rescue
When all my hope is gone what will I cling to?Come on and get up, show me what you're made of
When push comes to shove
Come on and get up, here comes another round
It's all come down to your last second chanceI've been here before, lonely and cold
Dark without a break, how could she have known
That He was the One who came to rescue?
And now my hope is gone, can I find more in You?Come on and get up, show me what you're made of
When push comes to shove
Come on and get up, here comes another round
It's all come down to your last second chanceYour last second chance, your lastCome on and get up, show me what you're made of
When push comes to shove
Come on and get up, here comes another round
It's all come down to your last second chance
This is your last second chance
