

# Watch the Sunrise

## Big Star

I can feel it now it's time  
Open your eyes  
Fears be gone it won't be long  
There's a light in the sky It's okay to look outside  
The day it will abide  
An' watch the sunrise Sun, it shines on all of us  
We are one in it's hands  
Come inside and light my room  
Like the heart of every man It's okay  
(Okay)  
To look outside  
(Outside)  
The day it will abide  
(Day it will abide)  
An' watch the sunrise Haa haa, haa haa  
Haa haa, haa haa I can feel it, now it's time  
Open your eyes  
Fears be gone it won't be long  
There's a light in the sky It's okay  
(Okay)  
To look outside  
(Outside)  
Your love it will abide  
(Love it will abide)  
An' watch the sunrise
