Automatons

Sell Crazy

(claude s.)I can see a million faces plastered on the screen
I'll never know and yet I may you see
As long as I'm connected to themAll the lines are superficial
All emotions has been deemedErasable
Retrievable
Removable
IllogicalEverything is automatic
One by one they fall aloneEverything is automatic
Everything is automatic
Everything is automatic...nowSomewhere in the world right now
Someone sat and watched t.v....and they're lonely
The future is here
Get it while you can
The future is real
So go do what you canEverything is automatic
Everything is automatic
Everything is automatic...nowEverything is automatic
Everything is automatic
Everything is automatic...now
