

Promise

Tori Amos

Promise not to say
That you told me so
Promise not to say
That I'm getting too old Promise not to take
Never take your phone
I mean take their word
You mean over yours?
What I need to know, will you Be there, Be there, Be there
Be there, Be there, Be there
Where the sun shines
I will be there
You are the light
That follows you everywhere
And look for my love
Where the sun shines
I will be there
Will you Promise not to judge
To judge who you love
I don't know if I
Yes, make that Promise
Whatever it is
Can you hear the truth
If they accuse me
You think I'll doubt you?
What I need to know, will you Be there, Be there, Be there
Be there, Be there, Be there
Where the sun shines
I will be there
You are the light
That follows you everywhere
And look for my love
Where the sun shines
I will be there
Will you Be there, Be there, Be there
Be there, Be there, Be there
When I am all alone
You're not alone
When I am broken down
We all break down

When every door is closed
There is one more
Will you look for me?
I will rescue you Where the sun shines
I will be there
You are the light
That follows you everywhere
And look for my love
Where the sun shines
Where the sun shines
I will be there
I will be there
I will be there Be there, Be there, Be there
