

Set Me Free

The Heavy

You made a mat out of me but you're not satisfied
You make believe what you see but never leave an eye
I got a million things on my mind plus you
I don't know what we'll do
I only wanted to love ya
You only wanted a taste
And my mission to whoa ya
Was all the time that we waaa?
Time that we wasted
Why don't ya set me free, yeah
Why don't ya set me free
Why don't ya set me free, yeah
Why don't ya set me free
And every time that I think about the better days
Remember how we were keys when we were high on haze

We never knew bout the way things were
I still need to forget
Cause when you wanted protection
You used to call out my name
Yes you did
And I was changing direction
And making me feel the same
Me feel the same about you
Why don't ya set me free, yeah
Why don't ya set me free
Why don't ya set me free, yeah
Why don't ya set me free
All ya got to do is set me free
All ya got to do is set me free
All ya got to do is set me free
All ya got to do is set me free
