Advisory - the following lyrics contain explicit language:

When I sleep is when you rise  
Get out of bed, wipe the sleep from your eyes  
I shut my eyes, all the world drops dead  
Now's the time friend of mine With a passage to  
A passage from your Daily Missal  
We taught that cat to crawl When I sleep is when you rise  
Get out of bed, wipe the sleep from your eyes  
My heart and soul are in your hands  
Now's the time friend of mine With a passage to  
A passage from your Daily Missal  
We taught that cat to crawl Now's the time friend of mine  
And now's the time friend of mine
