Slowly

Sasha

So many faces passin' me by
Each of them, nameless and hollow insideTell me, do you feel the same?
Could we live the dream they all run to?
Believe me, the chasin' is in vain
The faster you are runnin', the longer it will take you to find itSo we should go there slowly, runnin' is a waste of time
The time you need to ease your mind
Slowly, we're gonna let love grow
As long as we take it slowEveryone out there keeps rushin' around
We'll just be floatin', safe and soundSoftly fallin' into life
Nothing's gonna keep us from risin'
Trust me, soon we will arrive
But the faster you are runnin', the longer it will take you to find itSo we should go there slowly, runnin' is a waste of time
The time you need to ease your mind
Slowly, we're gonna let love grow
As long as we take it slowSo we should go there slowly, runnin' is a waste of time
The time you need to ease your mind
Slowly, we're gonna let love grow
As long as we tryTo go there slowly, runnin' is a waste of time
Time you need to ease your mind
Slowly, we're gonna let love grow
As long as we take it slow
