

Cannibal

Static-X

Thrash it, bash it, live to smash it
Light the spark, reach out and crash it
Rip it stronger, grind it longer
Harder, faster, rabbit master Sleeping beast, rest in peace, far too primal
Rip the flesh, taste of death, bite the gristle
Killing game, primitive inquisition
Tear it up, inside out, small incision Assimilate, trust in hate, your obsession
Celebrate, assassinate your religion
Us and them, hollow field, sensing fear
Cannibal, can't believe you're a person Cannibal
Cannibal Chop it up, peel the skin, slow dissection
Sick minds are blind to the reason
Tune it up, touchdown, angel grinder
Cannibal, watch and prey on the victim Cannibal
Cannibal Killing game, watch and prey on the victim
Rabid beast, can't believe you're a cannibal
Killing game, watch and prey on the victim
Rabid beast, can't believe you're a cannibal Killing game, watch and prey on the victim
Rabid beast, can't believe you're a cannibal
Killing game, watch and prey on the victim
Rabid beast, can't believe you're a cannibal Thrash it, bash it, live to smash it
Light the spark, reach out and crash it
Rip it stronger, grind it longer
Harder, faster, rabbit master Thrash it, bash it, live to smash it
Light the spark, reach out and crash it
Rip it stronger, grind it longer
Harder, faster, rabbit master
