

# Lost It All

Tank

We was living high, money to the sky  
A couple more moves and we was gonna leave that life behind  
But like all good things they come to an end  
Said all great teams can't always win  
I guess I'm taking my loss but I didn't expected to be like this Uh, I don't care if they take the house and all the  
rides  
If they throw me in jail and the judge sentenced me to life  
Cause I've already lost it all, lost it all  
Cause I've already lost it all, lost it all  
When I lost you.
