Novocaine

Lo-Pro

You left me like summer
And met me like fall
But it's just a change in the weather
That won't change me at allSo I brace for winter
and I'll face all the rain
but I feel no different
because I'm numb like novocaineYou were cold like December
When I was warm as the sun
How it all can change like the weather
But it won't change me at allSo I brace for winter
and I'll face all the rain
but I feel no different
'cause I'm numb like novocaineYou left me like summer
And met me like fall
So I can't wait 'till springtime
No I can't wait..So I brace for winter
and I'll face all the rain but I feel no differentbecause I'm numb like novocaine
because I'm numb like novocaine
because I'm numb like novocaine
because I'm numb like novocaine
because I'm numb like novocaine
