Some Kind Of Beautiful

Eva Avila

Baby what you done to me,
I can't get you off of my mind, babe I'm
hypnotized
Didn't know I could feel this way
Was starting to believe love had given up on me
Thought I'd had my chance and missed it
Suddenly I can see it's all just beginning
No ifs and no buts and there's no in between
Loving you happened so naturally[Chorus:]
Some kind of beautiful, has taken control of me
Some kind of beautiful philosophyNever thought I would ever find
Stuck in the middle and always just a step
behind
Every day always was the same
Living in the eye of a hurricane, yeah
Used to think I'd been forsaken
Finally you can see my smile I ain't fakin'
No ifs and no buts and there's no in between
The tracks of my tears are nowhere to be seen[Chorus:]
Some kind of beautiful, has taken control of me
Some kind of beautiful philosophy
A new kind of wonderful is turning my world
around
Some kind of beautiful love I foundNever knew love like this existed
Thought that I had my chance and missed it
Never knew you could have it all
Spending my life just make believing
Hoping that I would find that feeling
Of some kind of beautiful[Chorus:]
Some kind of beautiful, has taken control of me
Some kind of beautiful philosophy
A new kind of wonderful is turning my world
around
Some kind of beautiful love I foundSome kind of beautiful love I found
