

# Hex Me

## Buck

Well she looks like a witch but she tastes like chicken and when she comes around you know that all the boys  
get smitten  
It's the deadly combination of fear and fascination that drives them out of their mindsHex meShe ain't no kitten  
and she ain't so young but if she'll let me hang  
Around I'll be the last dog hung  
And I'll take sloppy seconds if  
She'll put 'em on a plate just don't call me late for dinner 'cause I ain't got time to wasteHex meIf you're gonna  
talk dirty to me, you better mean what you say  
I'll wash your mouth out with my desire before I let you get awayThey come from miles around 'cause the word  
is spreading fast, yeah, the world loves a woman with blood on her hands  
It's the deadly combination of sex and syncopation that drives them out of their mindsHex me
