

# We've Got Love

## Babyface

(Verse 1)

We done pain and sorrow

We done been through change

We done had way better days, yes sir

But I seen tomorrow

I ain't see no rain

Cause our sun's gonna shine again

(Chorus)

I been thinking bout it

Ain't no doubt about it

We got something that the world

Just can't explain

It was the one thing

That makes it always work out

It's cause we got love, love, love, love, love

If we got nothing else

We got love

It's cause we got love, love, love, love, love

At least that's something, yes

We got love

And the world goes round and round, round and round

And the world goes round and round

And the world goes round and round

Around in circles

(Verse 2)

We didn't have no money

Our bills ain't been paid

Coulda lost bout everything

But we climbed that mountain

And we found a way

And we back on top again

(Repeat Chorus)

(Outro)

I been thinking bout it

Ain't no doubt about it

Girl, we got something that the world

Just can't explain

It was the one thing

That makes it always work out

It's cause we got love, love, love, love, love  
If we got nothing else  
We got love  
It's cause we got love, love, love, love, love  
At least that's something, yes  
We got love
