

# All That We Have Is Now

[Jesse Winchester](#)

Well it was springtime when we married  
Here comes January  
Bring on the ice and storm  
Cause we got love to keep us warm But don't keep winter waiting  
I know let's go skating  
All that we have is now So let's just play together  
In whatever weather  
Sunshine in the park  
We'll tell ghost stories when it's dark And laugh to hide the fear  
And cry a perfect tear  
Cause all that we have is now Oh my my, look at the time fly  
Sorry I really have to run  
Oh I just love being with you  
Really the whole thing was such fun The sun is going down  
There's shadows all around  
And I feel more than wine  
We must do this again sometime But I can't tell you when  
But what a joy it's been  
All that we have is now Well I wanted more somehow  
But all that we have is now  
That's it  
Baby all that we have is now
