

# Wake Me When It's Over

[Willie Nelson](#)

I'm gettin' tired now, gotta get some sleep now  
Guess I've been worried much too long  
And don't wake me till it's over  
And the need for you is gone I was so happy before I loved you  
I'm wanna be like I was before  
And don't wake me till it's over  
When I won't want you anymore My eyes are gettin' weak now, gotta get some sleep now  
I gotta rest my achin' head  
I just wanna lay here, let me stay here  
Till the blues get up and leave my bed Good night darling, good night darling  
Good night forevermore  
And don't wake me till it's over  
When I won't want you anymore My eyes are gettin' weak now, gotta get some sleep now  
I gotta rest my achin' head  
I just wanna lay here, just let me stay here  
Till the blues get up and leave my bed Good night darling, good night darling  
Good night forevermore  
And don't wake me till it's over  
When I won't want you anymore And don't wake me until it's over  
When I won't want you anymore
