

For Her

Wiz Khalifa & Curren\$y

Higher than you ever been in yo motherfuckin life nigga
Without even tryin Uh, the game got a grip, never slip
Could tell by the way I got my hands on it
Started at the bottom but now my money's so motherfuckin tall I could stand on it
Ain't just happened homie, I planned on it
You think you better? Don't just talk bout it, put some grands on it
Sleep in Cali, woke up in France
Harlem, took the life I live
Chose to talk bout it now my fans on it
Now it's Dior all on my pants homie, don't know where I'm goin
My schedule full so I can't call it
So much weed, you see all them grams fallin
Rollin so much up that my fingers startin to cramp on me
Hear you talkin bout what I am
On top of that shit you sayin you gotta say rich as fuck when you mention us
I get a hold of the bumpest and I twist it up
Them Cadillac's in Atlanta front just to pick us up Oh please, won't you put me at ease?
I'm chilling inside
My feelings tied
How will I know this is real?
Usually I end up
Foolishly I end up
Give it all the love I own
Then to my dismantle, to you
Was just another day
You weren't even fun Same shit Hell, I woke up to the jump
Cartoons and cereal
A coup with 0 miles and oatmeal interior
These chicks digging my style, I'm sensei in the superior
To whatever you doin right now
And whatever you plan to get into
I'm just clackin my mouth
On the road to these riches
These hoes waving and flading
But I don't pay em no attention
I'm all about my empire
We just tryin to get bigger
We want the plan inside us
These snakes tryna get with us

They lookin for the co-sign
But a real nigga don't give a fuck
I'm too busy getting high
You can hitch a ride on another truck
Now excuse me as I kiss the sky
Peace signs to baby girl before she try to kiss me blah
She miss me like the sun in her eyes
Can't catch a butterfly
Kush castles in the sky
The only hason is when I smash and go she wanna cry
I get dressed, she wonder where I'm going or why
Can't deal with thatSo don't choose
I can't stand to be hurt again
If you flow it's just today
Then smoke and walk away
But please don't tease
Oh please, won't you put me at ease?Oh please
Won't you set me at ease?
Please
Oh please
Please, won't you put me at ease?
Won't you set me at ease?
Please
Oh please
Won't you set me at ease?
Please
Oh please
If you feel it's just a day
Then smile and walk away...
